

A BUNDLE OF SCREENSAVERS. CD. £4.99

ScreenSaver 2000. DJ-Interim. 1997.

Did you put your PC on 2000 when you tested your programs? Really? Did you try entering dates with the year 03, 08, 46? What is saved? 2003 1946? What is your application supposed to save? Do you use functions that compare dates? If you, your boss or your colleague believe their is time enough to look at the problem, you need this screensaver. Saver 2000 tells you the time left until 01/01/2000, in seconds, minutes, hours, weeks, days. It has also an install and de-install file, to make your life even more easy. In this version you can even select the font to show on the screen.

The Gallery of the Absurd. Britton W Smith.

The official screen saver for that absurd site, 'The Gallery of the Absurd'! Graphics by Derek Royal. Programming by Britton W Smith.

Aerosmith. Box of Fire.

This screen saver module works with the Windows™ screen saver. When the screen saver starts flames appear at the bottom of the monitor. The fire climbs up the screen, leaving the screen blackened. The AEROSMITH logo will appear when the fire burns away the sections of the screen it occupies. Includes sound effects and real Aerosmith music!

The Alicia Silverstone Screensaver.

It's the Alicia Silverstone Screensaver! You can configure it to float Alicia images on your screen when you're at lunch! Or you may put your own image to it too. It floats BMP images around your screen. You must configure it first. I have only included a few bitmaps with the zip file
To get more Alicia pictures, I recommend Brian Bray's Alica Silverstone

Artillery Screen Saver for Windows.

Microsoft Windows 3.1x screen saver module. Photos of artillery in action - exciting! Photos rotate automatically when activated. Plugs in to Control Panel Screen Saver section like any standard screen saver module. Shots include self-propelled howitzer, MLRS rocket launch, and 105mm howitzers slung beneath a CH-47. 256-color Windows driver, 4MB memory required. Requires VBRUN300.DLL.

Back Soon. version 2.00. Tay-Jee Software. 1994.

The intelligent screen saver for DOS . Back Soon! displays your customized message, which visitors can see displayed on your screen, interspersed with music or graphics to attract their attention. They can optionally leave their own messages for you on your PC, which you can later print or save to an ASCII file. Features multilingual support and an unattended task scheduler.

Beastie Boys ScreenSaver

This is a screensaver for Windows. No additional software is necessary to use it. This program is Freeware. The program 'Screen Genie' installs into the Windows screensaver function in the

control panel. Use the desktop control panel to set timing. System Requirements: 1.5 megs disk space 4 megs RAM. Robin Bechtel

Bugs Bunny Screen Saver For Windows.

Supports all windows sound cards. Features music in the background while bugs moves around the screen. Great Pictures, and Bugs says Goodbye at the end! Requires VBRUN300.DLL

Watch aliens get blown away by Duke! Registered version contains 5 animated screen savers plus a boatload of wallpaper, music, & sound files! Developed by Rhode Island Soft Systems, Inc.

EKG Screen Saver for Windows

Screen saver provides your computer with real-time EKG tracings of five patients. You set the prognosis for each patient - deciding who lives and who dies.....

Explosive. version 2.02. Hook & Gresseth. 1993.

Features both a DOS and Windows screen saver with beautiful fireworks patterns and fractal designs. It comes with an easy to use interface and is compatible with all major graphics cards.

Fixes bugs on systems without a mouse. You'll find it both entertaining and practical as beautiful displays, save your computer screen from harmful burn-in, compatible on systems running DOS 3.0

and above, Windows 3.0 and above, and Networks. Explosive now includes the complete set of displays in this file.

Facedance Screen Saver. version 2.0.

Amazing screen saver dancing faces. Send in your own photos and see your friends, family, pets and more. Uses digitized images saved in a 256 colour PCX format. Must see for anyone who likes screen savers. Comes with many background effects and images.

Fireworks for Windows 95. Perpetual Motion Software.

This screen saver runs under Microsoft® Windows® to simulate fireworks launching and exploding on your screen. It is EXTREMELY customizable—you have to see it to believe it! It is distributed as freeware.

Fishes ScreenSaver. 1994.

An excellent Screensaver for Microsoft Windows. Fishes simulates tropical fish in an aquarium. Super Flics Screensaver. Check out this great flic screen saver, that runs under Windows. Nine brilliant flics will dazzle you for hours and hours. Also features music and password protection. Original artwork done by Ed Kellerman, a one of kind screen saver not to be missed.

Frenetic Screensaver. Seraline. 1995.

The Frenetic Screensaver uses a variety of randomly selected patterns to endlessly build up designs. It can take some time to generate something interesting, so please give it a few goes if it is not initially appealing. The screensaver uses a 256 colour palette if available, but it also runs on 16-colour VGA.

Guinness Screen Saver. Guinness Breweries. 1995

The official Guinness Screen Saver for Microsoft Windows, complete with own installation utility for Control Panel setup. Supports Sound cards and SVGA display. Order this now.

Halloween Screen Saver. Star Computer Services. 1996.

This screen saver was made by Star Computer Services. The screen saver was made from following a lesson on how to use Corel Click and Create. This screen saver is Freeware.

Holiday Screensavers. Howling Good Software. 1996.

Holidays is a screen saver collection for use with Windows 95 which includes. Hearts Screen Saver A romantic screen interlude for Valentine's Day (or any day). Fireworks Screen Saver It's the Fourth of July everyday with this explosive screen saver (but you better keep a fire extinguisher handy just in case). Christmas Tree Screen Saver This year don't forget to decorate the monitor. Christmas Tree is a fun animated christmas tree to liven up your screen (when your not using it).

Kazlines. version 2.10. for Windows.

Dazzling, colourful, animated screen saver. Select from nine different shapes and customize the color, size, speed, fill, and spacing for endless possibilities. Runs as a screen saver or in a window.

Here Kitty. John Owen. 1994.

Is a Windows 3.1x screen saver that animates a cute kitten on your desktop. Also works with Windows '95.

The Lights Go Down version 2.20. Pik A Program. 1995.

Award winning screen saver collection. 40+ modules (over half in this version) with password & randomizer. Tremendous special effects, great animations (e.g. customize Bitmap show for .BMP & .JPG files), fantastic fractals! Create your own new 32 bit code savers for Win 3.x (registr. incl. samples & src code).= Requires Windows 3.x. or Windows '95. (386+ for some modules) SVGA, soundcard recommended!

M25 ScreenSaver. 1994.

An excellent Screensaver for Microsoft Windows. The M25 saver features traffic travelling on the infamous London Circular Motorway.

Mopy Fish. Global Beach Software. 1995.

Mopy Fish is a Pet that has been developed to mimic the behaviour of a real Parrot fish. It has taken many thousands of man hours to build the artificial brain that will ensure your fish behaves just like our two real fish (Spike and Reef) that we used to model the Mopy fish on.

Multimedia Pal. Copyright © 1997 Sam Sammandam

A Screen Saver program for displaying JPEG and multimedia files. Includes many JPEG art file examples.

Oregon. Laser Excellence. 1997.

Pictures of Oregon, in the pacific northwest of the United States of America.

Virtual Pet for Windows '95.

Windows '95 adaptation of the popular virtual pet watches. You may choose from any ten pets, Cat, Dog, Rabbit, Fish, and many more. You must look after your pet by talking to him, feeding him, cleaning him, giving him medicine, and chastising when required. Just like a real pet, it will suffer if not cared for correctly.

PhantomScreen. OPCS Software. 1993.

PhantomScreen is an excellent DOS based screen saver utility. Protects computer from unauthorised access while you are away, displays time, livens workplace with scanned images/art, colourful animations, leaves messages, etc. Customizable. Password protection. Supports 2, 16, and 256 colour, images up to resolutions of 1024x768. Requires Hard disk and Mouse. Any display.

Power Saver for Windows 9x - Version 2.0

Copyright © 1996-1997 Jim Mathews

Power Saver for Windows 9x gives you better control over the power usage of your computer display. With Power Saver, you can quickly and easily put your display into a low power mode, and let Power Saver put the display into even lower power modes as your system sits idle. The touch of a key or a twitch of the mouse will restore your system to its normal powered-on condition, ready for use. Power Saver requires a display adapter and monitor that conform to the VESA DPMS hardware and software interface standards. Most display adapters and computer displays that conform to the U.S Environmental Protection Agency "Energy Star" program should be compatible with Power Saver.

Razor Demo. Razor. 1992.

Just sit back, and watch this amazing high resolution graphical display of 256 colour VGA wizardry. Excellent stereophonic soundtrack available to those of you, who are lucky enough to have a sound blaster card. VGA required, Soundblaster support.

Santa Claus, Christmas Screensaver for Windows.

A colourful "Merry Christmas" banner floats on the screen, and Santa and his reindeer travel across also (overhead view). You should have a fast video card to enjoy this, or it's kinda jerky.

ScreenSaver Super Bundle v2.0 for Windows 95.

12 great animated screen savers, plus Full Motion the video screen saver. Req.VBRUN300.DLL. Shareware. Galt Technology.

Seascape. version 2.00. Advanced Computer Tektonics. 1994.

Seascape is a screen saver for Microsoft Windows 3.10. which displays relatively realistic fish and tiny animals on which they feed; it works with built-in Windows screen saver utility. Seascape is Shareware produced by a member of the Association of Shareware Professionals.

Sheep vs Gravity Screensaver

It is not widely known, but Sir Isaac Newton actually formulated his theories about gravity and it's effects by watching sheep, not apples. No sheep were harmed during the making of this program. I strongly suggest you do not try this with your own sheep, or even with sheep that you've borrowed from a friend.

Shermans Lagoon Screensaver. Jim Tooney. 1995.

An animated VGA Screensaver featuring Lagoon creatures including, Blowfish, Swordfish, Squids, Hunter fish, Prey fish, Turtles, and Seals Great graphics with realistic bubbles and Soundblaster support. Requires Microsoft Windows, or Windows '95.

Space Flight Operations Screensaver.

Scrolling Photographs of the U.S Space Shuttle. Works with Windows 95 Control Panel, Display, Screensaver setup.

Stamps of the World Screen Saver.

Is a Windows 3.1x screen saver module that displays beautiful 256-colour scanned images of postage stamps from Japan, Germany, Italy, Iceland, The Netherlands, Switzerland, Australia, Kenya, and Belgium.

Star Wars Screen Saver. Dirk Gerspacher. 1996.

This program was written as a tribute to the great movie Star Wars. This program may be redistributed, as long as all files are intact without modifications, and with notification to the author of such intentions.

Ted Shred Screensaver.

My name is Shred, Ted Shred. Save Yourself. Or save your screen. This Screen Saver intro will take care of you until I get there myself. You can Shred your way through eight levels of head slamming, barrel driving, and kayaking madness. Special levels and bonus blasts will give (those who exceed mortal limits) the ultimate satisfaction in game play. This Screen Saver is Windows 95 only.

Tran & Data Connection Software present. TIMELESS for WINDOWS 3.1x

The "MOST ADVANCED SCREENSAVER" for WINDOWS 3.1! The screensaver's display is an experience and a journey within itself! Witness the full potential of your 386+ computer and protect your VGA monitor at the same time. Do not miss this incredible display of graphics! We know you will enjoy it!

Tommorow's World Screensaver. No-Ho Digital. 1996.

Excellent Screensaver from the BBC hit series Tommorow's World. Using the latest technology the No-Ho team have produced their best screensaver yet, including music and high resolution AVI graphics.

Tora Karate Screen Saver for Windows95. 1997.

Prior to the release, I have searched everywhere for a Martial Arts screen saver to no avail. So here it is, the first known (known to me anyway) screen saver designed for the martial artist. This is the 32 bit version. This screen saver is freeware, no fees are needed, wanted or required. Just enjoy this software and let me know about bugs, improvements or even compliments would be nice. This software is owned by Tora Karate D.D.O. and is protected by copyright laws.

Trains Screensaver Volume 1

The first in series of unique Windows screen savers which feature archival transportation photos. Museum quality, 19th century locomotive prints, comprise this slide show. Design pros take note: these graphics are 8bit256 grey scale TIFF and royalty free!

Trains Screensaver Volume 2

The second in series of unique Windows screen savers which feature archival transportation photos. Museum quality, 19th century locomotive prints, comprise this slide show. Design pros take note: these graphics are 8bit256 grey scale TIFF and royalty free!

Water Spots Screensaver for Windows 95. Version 1.6. © 1995,1996 Lee Lorenz

Well, my first Windows 95 program. This one is a simple screen saver the turns your desktop into a “work of art”. It looks much better with Hi/TrueColor displays, as it does not attempt to manipulate the palette in any way. This screen saver has been tested with Build 490 of Windows 95 and the Release version.

XFiles Screensaver. C Justiniano. 1997.

This X-Files screensaver includes soundtrack from the Television series, and also features the XPlayer engine. XPlayer is a Windows95/NT application that plays animated screensaver modules. Modules are developed by Artists/Animators and Programmers. The XPlayer and Phoenix game engine are copyright by C. Justiniano. Look for other XPlayer compatible plug-ins.
